A REQUEST FOR YOUR TEAM

We have received many photos, but since we are not yet familiar with all of your models, it is hard for us to tell which model each photo shows. We want to make sure every model on the website has the correct photo and name.

Could you please ask someone on your team to be responsible for sending us the product photos, organized by model?

1. Send only the photos you want on the website, of the products you offer.

2. Send one email per model, with the series and model name in the subject. For example: "Artisan Series – Carriage House".

3. Please don't mix different models in the same email.

Once we receive them, we will organize everything in our Drive by series and model.

Who on your team will send the photos?

Name: _____

Thank you very much for your help!
