

Updated website for your approval

Hi Caleb,

Thank you for your answers. We updated the website with everything you sent. Two PDFs are attached:

1. **Classic-website-PHONE.pdf**: every page as it looks on a phone.
2. **Classic-website-COMPUTER.pdf**: every page as it looks on a computer.

Please check every page. If everything is correct, mark “Approved” at the end of this page and the updated website goes live right away. If something needs to change, write it down and we will fix it.

What we updated with your answers

- **Email** on the website and for the quote form: classicstructurespa@gmail.com.
- **Text messages**: “Text 814.441.2899”. Calls stay on 814.470.4494.
- **Your 4 sales centers**, with addresses and map links: Selinsgrove (Port Trevorton), Beaver Springs, Clarion and Muncy, open Monday to Saturday, 9am to 6pm. 110 Davidson Rd is shown as your shop.
- **Delivery**: free within 250 miles of Liverpool, PA (excluding NY), then \$5 per mile, one way.
- **Old shed removal**: there may be a charge of \$100 to \$300, depending on how dilapidated the old shed is.
- **Site preparation**: stone pad and timbered site prices, on the Delivery page.
- **Rent to own**: only one month’s rent down for free delivery, plus sales tax; over \$15,000, 10% down; maximum contract \$25,000. Your “Why Rent-To-Own?” and “main benefits” texts are on the Rent to Own page.
- **Financing** through Backyard Finance, with a 10-year column in the price table (cash price × 0.0132).
- **FAQ page**, with the sentence you added.
- **About Us**: Corrie, and “plain community and core values”.
- **October Special**: it disappears from the website automatically on November 1.

Two things we need from you

- 1 Financing minimum.** The 10-year financing column uses your formula (cash price $\times$ 0.0132) for every size. For a small shed this gives a low payment, for example \$35.97 a month on a \$2,725 shed. Is there a minimum amount or minimum building size for 10-year financing? Should we show financing on every size?

- 2 Please watch the inbox of classicstructurespa@gmail.com.** When our developer connects the quote form, the form service will send a **confirmation email** to classicstructurespa@gmail.com. Whoever has access to that inbox (you or Benue) must open that email and **click the confirmation link**.

Until that link is clicked, quote requests from the website will not arrive.

Your approval

☐ **Approved:** the updated website can go live.

☐ **Changes needed** (please write them below):

Name

Date

Thank you, Caleb!

Best regards,
Rayane Alves
